World's Week

BY HAROLD L. WEIR
Associate Editor and Daily Columnist of The Edmonton Bulletin

The French occupation of Syria sanctioned by the League of Nations at the San Remo conference of 1920 came to an enforced end last week, but the repercussions continue to shake Anglo-French relations.

It was a curious business. Vichy Frenchmen closed their fists at the loss of Syria, but at the same time uttered sighs of relief at the end of the bloodshed.

The diplomatic incidents leading up to the surrender were some of the most devious practised during this war.

Having stymied the Vichy crowd by proposing draconian terms for peace, the British finally were far more lenient when soldiers took up the armistice negotiations after Vichy had left the matter up to General Dentz.

Vichy maintained a firm attitude and at the same time avoided additional loss of life by giving General Dentz a free hand to accept most of the terms that the government felt it could not accept itself.

The armistice terms comprised only military clauses. Political ones, like French admission of the end of the Syrian mandate and the turning over of German and citizens were omitted.

The Vichy administration won one point which was stipulated. No de Gaulles were official partners in the contract, although General Georges Catroux, Free French commander in the Levant, was present at the signing at St. Jean d'Acre.

Practically speaking, the military clauses will have political results because France's Syrian mandate definitely comes to an end whether Vichy has admitted it in writing or not. The fact that the military conditions of the armistice were honorable was credited to the stubborn resistance of General Dentz. All Vichy troops were given honors of war and will be repatriated on French convoys if they so desire.

What will be the eventual results of the Franco-British Syrian agreement remains a mystery, insofar as relations between the two nations are concerned. Neither Vichy nor London will feel inclined to be more tender towards each other because of it. That much is certain. For many Frenchmen, Syria may replace Fashoda as a symbol. Fashoda, a town in the Sudan on the White Nile was occupied by a French expedition in July 1898 but surrendered to the British in November of the same year.

Apart from these considerations, the Syrian war has had far less tragic results than might at first have been anticipated. Britain was clever enough to localize the conflict.

France was clever enough to refuse German and Italian aid which would have enlarged the conflict and added fuel to the fire of dissidence.

The Chronicle invites its readers to listen to the Saturday Night Review broadcast by Harold L. Weir over radio station CFRN (1260 kc) every Saturday night at 8:15.

Harold L. Weir

Dog Pound

The final game of the Bush League was played at Water Valley on July 20th. Featuring several home runs, the final score was, Dog Pound 13, Water Valley 8. Dog Pound, having won the first game on July 13th after 11 innings, gets the cup for another year.

Mr. P. F. Sullivan sold his fat cattle and was making an all night drive to Cochrane Monday night.

Messrs John and Jim Robertson left for Saskatchewan on Saturday to visit their father who has been ill for some time. They expect to be gone for two weeks.

The F. Stone family were week end visitors at Banff.

Mr. and Mrs. Wm. Gray and family returned from a trip to Eastern Alberta where Mr. Gray was judging at a stampede. They report the crops as being badly burned east of Drumheller.

Mrs. S. Loughheed, Helen, and Delores are spending 2 weeks with Mrs. Loughheed's parents at Nanton.

The Williamsons are busy building a dwelling on their south place. They have no trouble keeping warm at the job.

Woodrow Hoffman is going to build a house. He may intend to batch but we don't think so.

Alberta's hog production this year has increased 21 percent over 1940 according to Dominion statistics. From January 1 to July 3, Alberta farmers sold 730,850 hogs for a computed total of \$11,000,000.

Hon. W. A. Fallow, minister of public works, thought up a new idea last Friday in the midst of the hot spell. Acting on the principle that "It's the heat, not the humidity", he ordered the heating system of the legislative buildings stuffed with ice. Thereafter, doors were closed. After an hour or so heat registers were opened in various offices — and cool breezes emerged.

Colonel E. W. Sansom, D.S.O. who is in command of the Canadian Armoured Division.

Hitler neither smokes nor drinks People in countries he has conquered can get him one better — they don't even eat.

Wheat Board Regulations

Under the new Canadian Wheat Board Regulations covering the crop year 1941-42, every producer who makes delivery of or sells wheat to any party, or takes it to a mill to be grinded, must have a permit and all such deliveries must be entered in the permit book, and be within his established quota at the delivery point.

As no purchases or deliveries of wheat may be made until authority is received by the Board, applications should be made as soon as possible.

Get Permit Books Now

The issue of permit books is proceeding very slowly. In fact, unless producers make some effort to get this done right away they will cause a jam in the Board's offices — and that will certainly cause delay. There will be a flood of applications all at once and many farmers will be kept waiting for the permit to deliver their grain. All producers who have not their new permits yet, should see their elevator agent on their next trip to town.

Saving of Gasoline Urgent

Appeals to the Canadian people to unite in an effort to ensure all necessary supplies of gasoline and oil for Britain's war needs were made in an address by E. E. Soubry, director of trade for the British Petroleum Board. Other speakers were Munitions Minister Howe and G. B. Cottrell, Dominion oil controller, at a dinner given by Mr. Howe in Mr. Soubry's honor.

Mr. Cottrell urged Canadians to leave their cars in the garage four days a week and to take no long trips. "I appeal to you as fellow Canadians to rise to the occasion and not ask for regimentation", Mr. Cottrell said.

Mr. Soubry said he had come to America "for oil and the tankers to bring it home." It takes 700,000 gallons of oil to fuel a battleship — enough to heat the average home 350 years. The large bombers which fly to Berlin from England use 3,800 gallons of gasoline, or enough to carry the average Canadian motor car 75,000 miles, said Mr. Soubry, in an effort to impress on his hearers a picture of the tremendous amount of gasoline and oil required for war.

Hail insurance claims are double the number made last year, according to officials of the Alberta Hail Insurance Board. Five major storms this year have boosted the total of claims. In some sections, it is said, crops are growing again after an earlier battering.

Closing of certain Alberta oil wells by order of the federal oil controller is purely a temporary measure, intended to conserve gas pressure, according to reports received in Edmonton. Hon. N. E. Tanner, minister of lands and mines, gave his opinion that those in charge of conservation were doing the job well, and in accordance with national defence policy.

LOCALS

Don't forget the Calf Club Show and Sale at the Stockyards Friday, July 25, at 2:30.

Mr. and Mrs. T. M. Mait and Mr. and Mrs. J. Hesketh were week-end visitors at Banff.

Mr. and Mrs. F. Purvis and Mrs. Sutherland spent a few days at Banff the latter part of last week.

Quite a number of young people from Crossfield took in the Sports' Day dance in Didsbury Wednesday night.

Miss Mildred Metheral, of the Greyhound Coffee Shop staff at Banff, was a Sunday visitor at the parental home.

Bervil Patmore and Roy Hoover have returned to town after having spent the past two weeks visiting cousins in Calgary.

Mrs. Miles Pike and daughter, Shirley, are visiting for two weeks at the home of Mrs. James Mitchell of Nordegg, Alberta.

Mel. Patmore, accompanied by Mrs. Patmore and Berwyn, "trucked" to Edmonton Saturday last taking Guy McNeill's trailer with them.

Carl Becker has the contract to build the one-room addition to the Beaver Dam school at Madden, and went out Wednesday to start operations.

Through the absence of both the president and vice-president of the Board of Trade, the meeting called for last Monday evening had to be postponed.

Welcome rain arrived Tuesday afternoon to revive the parching crops and gardens, and it has been showery ever since with the weather still unsettled.

Misses Claire Metheral and Nora Fleming returned Saturday from ten days' camping at Kasota Beach, Sylvan Lake, where they were attending C.G.I.T. Camp Council.

The Misses Ruth and Ruby Weiss, graduates of the Marvel Beauty School, Calgary, have taken over the Rosebud Beauty Parlor, first door west of the Bank, where they are prepared to give a complete beauty service.

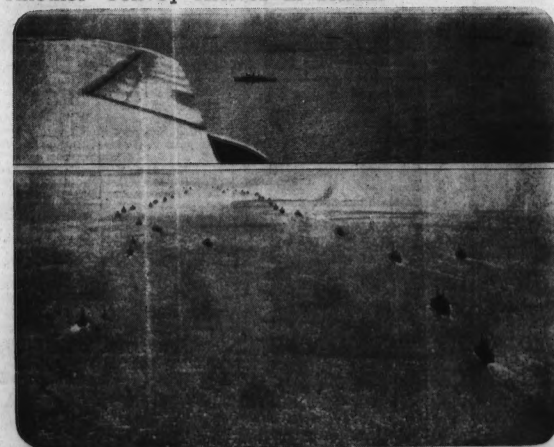

Tuning in our radio to CFAC on Sunday to listen to the morning service at Christ Church, Elbow Park, Calgary, we thought we recognized the voice of the minister in a very fine address, and later learned that we were correct — the Rev. A. D. Currie was in charge of the service as guest preacher.

Miss Mildred Reid, youngest daughter of Mr. and Mrs. R. J. Reid of Langley Prairie, B.C., accompanied by Mr. and Mrs. Cliff Reid of Calgary, spent Thursday, July 17th, with Mr. and Mrs. S. Reid and friends of Crossfield. Miss Reid is a visitor in Alberta for a month, after an absence from here of 15 years.

Another Convoy Arrives in Britain

A destroyer (top, foreground centre) blinks a signal to the pilot of the Lockheed-Hudson bomber (wing at left) as a convoy carrying supplies from North America approaches the coast of Britain. The destroyer accompanied the merchant ships across the Atlantic while the bomber flew out to meet the convoy and aid in the task of warding off submarine attacks. The size of the convoy can be judged from the number of ships at bottom.

NOTICE TO MILITARY TRAINEES

Officials of the National War Services Department report gratifying and ready response from young Canadians being called for military training under the National Resources Mobilization Act.

They state, however, that while each man received a mailed individual and personal notice of his call to training, as his period arrives, a number of enquiries are still being sent direct to Ottawa. Major-General LaFleche, Associate Deputy of the Department of National War Services, under whose direction the mobilizing of trainees is being carried out, points out that the Regulations have been planned to smooth out possible difficulties for the trainee by dividing Canada into thirteen Administrative Divisions, with officials and headquarters offices in each Division, authorized to handle procedure and operations locally.

To the Divisional Registrar of National War Services in the area in which they are registered should be forwarded all communications concerning business arising from the provisions of National War Services Regulations. All men from 19 to 45 are warned that notification must also be given promptly of change of address or marital status. Failure to do so incurs the risk of fine or imprisonment.

Young men in this area, liable for military training, requiring further information regarding obligations or applications for postponement should communicate with the Divisional Registrar for this district, whose name and address together with the name of other members of the Board, are given below for their convenience. Division "N" Headquarters—Edmonton. Chairman of the Board Hon. Justice Harvey, Edmonton. Members of the Board: Elmor Feir, Stettler, and R. J. Dinning, 305 Bank of Commerce Building, Edmonton. Divisional Registrar: J. P. McIsaac, Court House, Edmonton.

What happens to old propeller blades? Trans-Canada Air Lines works them up into a variety of aircraft parts and keeps them flying. Since war started T. C. A. has manufactured much of its own equipment. The aluminum blades at the end of their service life become oxygen fittings, plumbing blocks, tank flanges, cabin fixtures, a host of minor parts. Prop shanks have even found their way into the instrument shop—fabricated into vacuum chambers for testing flight instruments.

Beauty for YOU

The Secrets of Good Looks

by *Barbara Lynn*

TOP TO TOE FRAGRANCE

Personal daintiness is one of the most important assets of any woman and there is no excuse for carelessness. Now that warm days are here, be sure to keep fresh and fragrant.

To guard against unpleasant breath, use a mouth wash frequently. A simple and effective mouth wash can be made at home by adding a few drops of myrrh to half a

glass of water. Clean your teeth regularly. Incidentally, you'll find dental floss most helpful.

Is your hair clean and shining? It's simple enough if you give it a little attention. Shampoo frequently. Don't neglect to brush your hair vigorously and often. Massage the scalp occasionally with bay rum, too.

Perspiration is one of the most constant of summer worries. Don't try to prevent perspiration, because this is a most essential bodily function, and you'll start all sorts of complications if you stop it. You can however, prevent perspiration odour. Wash frequently with an olive oil soap to ensure thorough cleansing, then dab some deodorant cream under your armpits. Keep the armpits free from hair of course.

If you have any difficulty keeping your feet cool and dainty, rub them with vinegar, then spray them with talcum powder.

"CALLING ALL CARS"

Save Gasoline

A NATIONAL EMERGENCY

Canada is right up against an acute shortage of gasoline and fuel oil. Tankers that normally supply our country have been commandeered for vitally important overseas service.

The Commonwealth Air Training Plan, the rapid development of Canada's mechanized army units and the great work carried on by our corvettes make the demand for fuel urgent.

Our crude oil intake is limited. There is just one thing to do if our fighting forces are to carry on with a "full tank". Every Canadian motorist is asked to cut his daily gas consumption in half!

There are many ways by which this 50% saving can be made... ways and means to give you more mileage per gallon. You can drive slower so that you will use less gasoline. You can go fifty-fifty with your neighbours, inviting each other to share cars... for business, and for pleasure. People can readily go to and from work together, using one car instead of four... using one gallon of gasoline instead of several. Women as well as men can make these savings.

The amount of gasoline used in Canada for business, social and non-essential activities is amazingly high in proportion to that used by our fighting forces. One look at the figures would convince you that this situation must be reversed.

Canada does not ask or request you to put your ear up. She merely asks for your help... asks that you walk sometimes when the distance isn't too great...

that you take a shorter drive on Sunday afternoon... that you look after your car and keep it in good condition... that you say to your neighbour: "Let's use my car today. Jim, we'll use yours tomorrow."

Every day, in greater and greater quantity, we must release gasoline and oil by the thousands of gallons to our throbbing munitions plants... to our tanks and armoured cars... to our fighting planes and bombers... to our corvettes and merchant ships that ply the vital sea-lanes... so that the day of victory may sooner be at hand.

Will YOU help?

It is also vitally important that you reduce the use of domestic and commercial fuel oil.

17 easy ways towards a 50% GASOLINE SAVING

(Approved by Automobile Experts)

Reduce driving speed from 60 to 40 on the open road.

Avoid jack-rabbit starts.

Avoid useless or non-essential driving.

Turn motor off when not in use. Do not leave idling.

Don't race your engine; let it warm up slowly.

Don't strain your engine; change gears.

Keep carburetor cleaned and properly adjusted.

Tune up motor, timing, etc.

Keep spark plugs and valves clean.

Check cooling system; overheating wastes gasoline.

Maintain tires at right pressure.

Lubricate efficiently; worn engines waste gasoline.

Drive in groups to and from work, using cars alternate days.

For golf, picnic and other outings, use one car instead of four.

Take those short shopping trips ON FOOT and carry parcels home.

Walk to and from the movies.

Boot owners, too, can help by reducing speed.

Your regular service station man will gladly explain these and other ways of saving gasoline. Consult him.

GO 50 50 WITH OUR FIGHTING FORCES

The World of Wheat

By H. G. L. Strange

Many fields this year have been badly affected with the pale Western cutworm. and much crop has been damaged. It is far too late now to do anything about this present crop for the only way to control this insect is to take certain precautions with the summerfallow the year before the crop is seeded.

All work on fields that are being summerfallowed this year should stop not later than the first of August, and the fields then should be left completely undisturbed until the middle of September. No cattle or stock should be permitted to walk on the fields. All this so that the rains which fall may form a crust on the summerfallow which will make the land unsuitable for egg-laying by the cutworm moths. If no eggs are laid in the fall, then the field will be reasonably free from cutworms the following year.

This is the advice given by Government experts who have spent many years in the careful study of the life habits of the pale Western cutworm, and who have made many experiments with the control of the insect. For several years I tried this control method on my own summerfallow, and I found it prevents much damage.

Following factors have tended to raise price: Broomhall states bread grain prospects below normal in Scandinavian countries, but supplies almost exhausted. Reports from Europe indicate below normal returns in grain crops. Australian "carry-over" this year is officially estimated at 16 million bushels, far below normal. Fighting in Ukraine continues to threaten grain crops.

Following factors have tended to lower price: U.S. Department of Agriculture estimates production of all wheat in the U.S. at about 924 million, 107 million more than last year. Wheat production in the Orient is expected to exceed the yields of 1940. Officials state U.K. to take over 2,000,000 bushels of U.S. corn under Lease-Lend.

Buy War Savings Certificates

Cabbage Caterpillars Controlled By Dusting

Dusting with arsenate of lead and hydrated lime is the most widely recommended remedy for the velvety green caterpillars, also known as the imported cabbage worm, which feeds on cabbages and cauliflower, eating large circular holes in the leaves and at times boring into the centre of the plants. One part of the poison, states Alan G. Dustan, Division of Entomology, Dominion Department of Agriculture, should be mixed with eight parts of hydrated lime and dusted

on the plants in the early morning or late evening when the leaves are wet with dew. Particular attention should be paid to the central portions of the cabbages and cauliflower as the caterpillars prefer to feed there. Two or three applications should be made as required, care being taken to apply the dust immediately feeding becomes evident. Due to the waxy condition of the leaves, spraying has not given satisfactory results.

If the plants have to be treated shortly before being marketed, fresh pyrethrum powder should be used,

one part to three parts of hydrated lime or flour. Pyrethrum is non-poisonous to human beings and can be bought at any drug store. The remedies recommended for cabbage worms also control other destructive cabbage and cauliflower insects as the cabbage looper and the diamond-back moth.

IMPORTANT NOTICE to Men Liable for Military Training

FOR Public Safety, by Proclamation, dated June 27th, 1941 (under authority of The National Resources Mobilization Act 1940 and The War Measures Act), The Governor in Council has now made liable for military training for the defence of Canada—

—all male British subjects resident in Canada at any time since September 1st, 1939, who, on July 15th, 1940, were unmarried, or childless widowers, and who on July 1st, 1940, had reached the ages of

Twenty-one years
Twenty-two years

Twenty-three years
Twenty-four years

"and also men who attained or will attain the age of twenty-one years on or after the first day of July, 1940, and who were on the fifteenth day of July (1940), unmarried or widowers without child or children."

Extract from Paragraph 3 of Proclamation.

Men designated in the foregoing are further required

"To submit themselves for medical examination and to undergo military training for a period of four months within Canada or the territorial waters thereof, and to report at such places and times and in such manner and in such authority, or persons as may be notified to them respectively by a Divisional Registrar of an Administrative Division."

Extract from Paragraph 4 of Proclamation.

SPECIAL PROVISIONS

designed to facilitate
equitable conditions of mobilization

Deferring of Training Periods to Avoid Individual Hardship

If the Board is satisfied that the calling out of any man for military training will cause extreme hardship to those dependent upon such man, the Board may, from time to time, postpone the training period of the man: Provided that such man shall apply for a postponement order in accordance with the provisions of subsection one of section ten of the regulations.

Postponement Applications Must be Made in Writing

No application for a postponement order may be made otherwise than in writing, by the man called out to the Divisional Registrar who issued the "Notice—Medical Examination" and within eight clear days of the date appearing on such notice.

Any person who appears before a Board shall do so at his own expense.

War Industry and Seasonal Occupations given Consideration

In the national interest, applications for postponement of training of key men engaged in war industries, or in essential occupations, may be addressed to the Divisional Registrar concerned.

Eligible Men Must Not Leave Canada without Authority

No male British subject who is liable to be called out for military training shall, after his age class has been called out by proclamation, leave Canada, for any reason whatsoever, unless and until he has been so authorized in writing by the Chairman of the Board to whose jurisdiction such man is subject.

Eligible men must notify authorities immediately of change of address or marital status

If you are a single man or childless widower between the ages of 19 and 45 and if you change your address, or if you marry, you must immediately notify

THE NATIONAL WAR SERVICES DIVISIONAL REGISTRAR IN
THE DIVISION IN WHICH YOU ARE REGISTERED

If you do not know the name and address of your Divisional Registrar, ask at your local post office.

Failure to comply with this requirement may subject you to a fine or imprisonment.

CIVIL RE-EMPLOYMENT

Provision has been made for the reinstatement of men in their positions of employment, after their periods of training or service, under conditions that will facilitate their re-entry to civilian life.

Published for the information of those concerned by the authority and courtesy of

THE HONOURABLE JOSEPH T. THORSON,
Minister of National War Services.

College Graduate: Make it five minutes sir, and I'll take cash for the other five minutes.

Routes to Russia Threatened

While Tokio discussed possibility of extending limits of her territorial waters to cut off United States and Canadian aid sent to Soviet Russia via Vladivostok, Japanese newspapers and routes involved might be Soya Strait (1), between Hokkaido and Sakhalin, and Tsugaru Strait (2), between Hokkaido and main Japanese island of Honshu. Korea Strait, in south, would probably be closed and Sea of Okhotsk, in north, is blocked by ice most of the year.

Hash—In Other Forms

In spite of boarding house hash and the jokes about this food, hash is a tasty dish when properly made. But hash is not the only food that gets its pleasing savor from a combination of foods. Hash may appear in other forms, such as the following sandwiches.

Mystery Sandwiches

- 3 hard cooked eggs
- 1-2 pound cheese
- 1 small onion
- 1 pimento
- 1-4 teaspoon salt
- 1-8 teaspoon paprika
- 1 can sardines

Put all the ingredients through the meat grinder, using the finest cutter. Mix and add seasonings. If not moist enough, add oil until of a creamy consistency, just right to spread. Let stand for several hours before using, to blend the flavors.

Isn't your son rather young to join the army?
Yes, but you see he's only in the infantry.

Wife: "Although she is young our new nurse is very careful. She never lets anybody kiss the baby while she is around."

Hubby: "Who would want to?"

9 day "Princess" cruises. Short
cruises along West Coast of
Vancouver Island. Or, if going
East, take the popular Lake
and Rail route.
